COMPANY PROFILE

Calgary Blinds Company Ltd. was established in 2013 and is based in Calgary, Alberta. Operating under the Blinds Company brand, the company is a comprehensive provider of window treatments, offering integrated R&D, production, and sales. They specialize in motorized roller blinds, zebra blinds, smart curtain systems, and skylight blinds.

With a primary market in Alberta, Canada, and branches in Vancouver and Toronto, the company collaborates with wholesalers, builders, contractors, and designers to deliver decorative and functional window solutions for both commercial and residential projects. Their products have earned high praise from clients across Canada.

Blinds Company remains committed to delivering outstanding quality, competitive pricing, and trustworthy service to customers nationwide.

Features Configuration

Rectangular

Sloping Cill

Multiple linked

Forward Roll

Reverse Roll

Rectangular

Sloping Cill: The fabric is cut at an angle, Note: the blind cannot be fully retracted.

Multiple Linked: A single motor operates two or more blinds.

Forward Roll: Fabric rolls off the back, closest to the glazing.

Reverse Roll: Fabric rolls off the front, giving extra clearance for window handles.

The background of the top half of the page is a photograph of a bright interior space. Large windows are covered with white horizontal blinds. On a surface in front of the windows, there is a small potted plant with green leaves, a white ceramic lamp with a beige shade, and two decorative wire mesh spheres. To the right, a larger green plant is partially visible.
